

Study of Mitosis in Onion Root Tip

MODEL - AKBIO005

MAKE - AK LABS

The Study of Mitosis in Onion Root Tip Kit is an educational biology kit designed to demonstrate cell division through microscopic observation. It helps students identify different stages of mitosis and understand the process of cell reproduction through practical experiments.

KIT SPECIFICATION

Product Code	AK-BIO-005
Product Name	Study of Mitosis in Onion Root Tip Lab Kit
Subject	Biology
Suitable For	Class 9-12
Practical	Observation of Mitosis in Onion Root Tip Cells
Application	Schools, Colleges & Biology Laboratories
Packaging	Durable Storage Box with Essential Laboratory Accessories

KIT DETAILS

The **Study of Mitosis in Onion Root Tip Kit** enables students to observe the stages of mitosis using prepared onion root tip slides and laboratory equipment. It strengthens understanding of cell division, chromosome behavior, and the cell cycle while developing microscopy and observation skills through hands-on biology experiments. Ideal for schools, colleges, biology laboratories, and STEM-based science education.
