

Study of Microorganisms and Biological Specimens

MODEL - AKBIO012

MAKE - AK LABS

The Study of Microorganisms and Biological Specimens Kit is an educational biology kit designed to observe microorganisms and biological specimens through microscopy. It helps students understand microbial diversity, specimen identification, and laboratory observation techniques using practical learning activities.

KIT SPECIFICATION

Product Code	AK-BIO-012
Product Name	Study of Microorganisms and Biological Specimens Lab Kit
Subject	Biology
Suitable For	Class 9-12
Practical	Study and Identification of Microorganisms and Biological Specimens
Application	Schools, Colleges & Biology Laboratories
Packaging	Durable Storage Box with Essential Laboratory Accessories

KIT DETAILS

The **Study of Microorganisms and Biological Specimens Kit** provides all essential educational materials required to observe microorganisms and biological specimens using prepared slides and laboratory equipment. Students explore bacteria, fungi, algae,

protozoa, and other biological specimens while developing microscopy, specimen identification, and observation skills. Ideal for schools, colleges, biology laboratories, and STEM education.
