

Composition Biology Lab Kit

MODEL - AK CBLK

MAKE - AK LABS

Biology Lab Kit supporting practical learning for Classes IX & X.

KIT DETAILS

Designed as per Curriculum Requirements & Practical Learning Standards

Coverage

This Composite Biology Lab Kit is designed for Classes IX & X and includes essential laboratory equipment, models, and specimens required for curriculum-based practical activities. It supports hands-on learning, observation, and experimentation in school laboratories.

Objective

To provide schools with a complete set of quality Biology laboratory equipment that helps students explore, observe, and understand fundamental biological concepts through practical learning and scientific investigation.
