

Composite Math Lab Kit

MODEL - AK CMLK

MAKE - AK LABS

Activity-based Math Lab Kit for school practical learning.

KIT DETAILS

Designed as per Curriculum Requirements & Activity-Based Learning Standards Coverage

This Composite Math Lab Kit is designed for Classes IX & X and includes essential mathematical models, tools, and activity materials aligned with the school curriculum. It encourages students to learn mathematical concepts through interactive activities, exploration, and practical applications.

Objective

To help students develop a strong understanding of mathematical concepts by promoting logical thinking, problem-solving, and hands-on learning through engaging classroom activities.
