

HS Maths Lab Kit

MODEL - AK HSMLK

MAKE - AK LABS

The HS Maths Lab Kit is a comprehensive educational kit designed for higher secondary mathematics practicals. It includes essential mathematical models, geometry tools, measuring instruments, and activity materials, enabling students to explore mathematical concepts through hands-on learning and experimentation.

KIT DETAILS

The **HS Maths Lab Kit** is a complete learning solution developed for higher secondary mathematics laboratories. It contains mathematical models, geometric instruments, measurement tools, and activity-based learning materials for understanding algebra, geometry, trigonometry, coordinate geometry, calculus, probability, and statistics. Designed as per curriculum standards, it promotes conceptual understanding, logical reasoning, and experiential learning.
