

Astronomy Kit

MODEL - AK AK
MAKE - AK LABS

The Astronomy Kit is a comprehensive educational kit designed to introduce students to astronomy and space science. It helps learners explore the solar system, celestial bodies, eclipses, constellations, and planetary motion through hands-on models, experiments, and interactive learning activities.

KIT DETAILS

The **Astronomy Kit** is an all-in-one learning solution featuring educational models, observation tools, charts, and experiment materials for practical astronomy education. It enables students to study the solar system, planetary motion, eclipses, constellations, and celestial phenomena through engaging activities. Ideal for schools, colleges, STEM labs, and astronomy clubs, it fosters scientific curiosity and experiential learning.
