

21st Century Science Kit

MODEL - AK 21CSK

MAKE - AK LABS

The 21st Century Science Kit is a comprehensive educational kit designed to promote scientific inquiry through hands-on experiments and activity-based learning. It helps students develop observation, critical thinking, problem-solving, and innovation skills in accordance with NEP 2020 and modern STEM education.

KIT SPECIFICATION

Kit Type	21st Century Science Kit
Subject	Science & STEM Education
Learning Areas	Physics, Chemistry, Biology & Environmental Science
Components	Scientific Instruments, Models, Experiment Materials & Accessories
Material	Durable, Educational Grade Components
Application	Science Education, STEM Learning & Practical Experiments
Suitable For	Schools, Colleges, STEM Labs & Innovation Centers

KIT DETAILS

The **21st Century Science Kit** is an all-in-one learning solution featuring scientific instruments, experiment materials, models, and educational resources for practical science education. It enables students to explore concepts in physics, chemistry, biology, and environmental science through interactive activities. Designed for schools, STEM labs, and

innovation centers, it supports experiential, inquiry-based, and competency-based learning.
