

Weather Observations Kit

MODEL - AK WOK

MAKE - AK LABS

The Weather Observations Kit is a comprehensive educational kit designed to help students observe and measure weather conditions. It enables hands-on learning of temperature, humidity, rainfall, wind, and atmospheric pressure while developing scientific observation and environmental awareness.

KIT SPECIFICATION

Kit Type	Weather Observations Kit
Subject	Meteorology, Geography & Environmental Science
Learning Areas	Weather Monitoring, Climate Studies & Environmental Observation
Components	Thermometer, Rain Gauge, Wind Vane, Anemometer, Hygrometer & Accessories
Material	Durable, Educational Grade Components
Application	Weather Observation, Geography Practicals & STEM Learning
Suitable For	Schools, Colleges, Geography Labs & Environmental Science Laboratories

KIT DETAILS

The **Weather Observations Kit** is an all-in-one educational solution featuring essential meteorological instruments for practical weather monitoring and environmental studies. It helps students measure temperature, humidity, rainfall, wind direction, wind speed, and atmospheric pressure through real-time observations. Ideal for schools, colleges,

geography laboratories, and STEM education, it promotes experiential learning and scientific data analysis.
