

Analytical Weight Box (Brass C.P.) - Capacity 1 mg to 100 g

MODEL - CH-003/A

MAKE - AK LABS

The AK LABS Analytical Weight Box contains precision brass chrome-plated weights ranging from 1 mg to 100 g, supplied in a durable wooden storage box with forceps. Designed for accurate analytical weighing, it is ideal for laboratories, educational institutions, and scientific calibration applications.

PRODUCT SPECIFICATION	
Product Name	Analytical Weight Box
Capacity	1 mg to 100 g
Material	Brass, Chrome Plated (C.P.)
Storage Box	Polished Wooden Box
Accessories	Stainless Steel Forceps Included
Application	Precision Analytical Weighing & Balance Calibration

PRODUCT DETAILS
The AK LABS Analytical Weight Box is manufactured from high-quality brass with a corrosion-resistant chrome-plated finish for excellent accuracy and durability. The complete set includes standard metric weights from 1 mg to 100 g, neatly arranged in a polished wooden storage box with forceps for safe handling. Ideal for analytical balances, laboratory calibration, chemistry practicals, and precision weighing applications.

Key Features

- Precision brass chrome-plated analytical weights
- Weight range from **1 mg to 100 g**
- High accuracy for laboratory measurements
- Corrosion-resistant polished finish
- Durable wooden storage box with fitted compartments
- Stainless steel forceps included for safe handling
- Suitable for analytical and precision balances
- Long-lasting and easy to maintain
- Clearly marked metric weights

Applications

- Analytical Chemistry Laboratories
- Physics Laboratories
- Research Laboratories
- Educational Institutions
- Laboratory Balance Calibration
- Precision Mass Measurement
- Scientific Experiments
- Quality Control Laboratories
