

Plastic Graduated Dropper (3 ml)

MODEL - CH-051

MAKE - AK LABS

The AK Labs Plastic Graduated Dropper is designed for accurate liquid dispensing in laboratories, classrooms, and educational experiments. Made from high-quality transparent plastic with graduation markings, it offers safe, convenient, and precise transfer of small liquid volumes during scientific applications.

PRODUCT SPECIFICATION

Product Type	Plastic Graduated Dropper
Capacity	3 ml
Material	Chemical-Resistant Plastic
Graduation	Clear Graduated Markings
Color	Transparent with Graduation Scale
Application	Laboratory, School & Science Experiments
Reusability	Reusable and Easy to Clean

PRODUCT DETAILS

The AK Labs Plastic Graduated Dropper is manufactured from premium laboratory-grade transparent plastic for reliable liquid handling. Featuring clear graduation markings and a built-in squeeze bulb, it provides controlled dispensing and measurement of liquids. Lightweight, leak-resistant, and easy to use, it is ideal for chemistry, biology, medical, and educational laboratory applications requiring accurate sample transfer.

Key Features

- Premium laboratory-grade plastic construction
- 3 ml capacity with graduation markings
- Soft integrated bulb for controlled dispensing
- Transparent body for easy liquid visibility
- Lightweight, durable, and leak-resistant
- Suitable for chemicals, reagents, and biological samples

Applications

- Chemistry laboratory experiments
- Biology practicals
- Medical laboratory sample transfer
- Chemical reagent dispensing
- Educational science demonstrations
- Research laboratories
- General laboratory liquid handling
