

Polylab Test Tube Stand 6 Hole

MODEL - CH-264

MAKE - AK LABS

Polylab Test Tube Stand with 6 holes is a durable, lightweight laboratory accessory designed to securely hold test tubes during experiments, storage, and drying. Made from high-quality polypropylene, it offers excellent chemical resistance and is ideal for school, college, and research laboratories.

PRODUCT SPECIFICATION

Brand	Polylab
Product Type	Test Tube Stand
Number of Holes	6 Holes
Material	Polypropylene (PP)
Color	White
Application	Holding & Drying Test Tubes
Suitable For	School, College & Research Laboratories

PRODUCT DETAILS

The Polylab 6 Hole Test Tube Stand is manufactured from premium polypropylene for superior durability and chemical resistance. It securely holds up to six test tubes, ensuring stability during laboratory experiments and sample handling. Lightweight, reusable, and easy to clean, it is suitable for educational, industrial, and research laboratory applications.
