

Pipette Stand Horizontal for 12 Pipettes (POLYLAB)

MODEL - CH-250

MAKE - AK LABS

Horizontal Pipette Stand for 12 Pipettes is designed for safe, organized, and convenient storage of laboratory pipettes. It helps prevent damage, improves workspace efficiency, and provides easy access during laboratory experiments and routine analytical procedures.

PRODUCT SPECIFICATION

Product Type	Horizontal Pipette Stand
Capacity	Holds up to 12 Pipettes
Material	High-quality Chemical-Resistant Polylab Plastic
Design	Horizontal storage configuration
Construction	Lightweight, durable, and stable base
Applications	Storage and organization of laboratory pipettes
Suitable For	Schools, Colleges, Research, Clinical & Industrial Laboratories

PRODUCT DETAILS

Manufactured from durable, chemical-resistant Polylab material, this horizontal stand securely accommodates up to 12 pipettes. Its stable design ensures proper pipette storage, minimizes contamination risk, and is suitable for educational, research, clinical, and industrial laboratories.
