

Test Tube Stand (Round) 12 Hole (POLYLAB)

MODEL - CH-265

MAKE - AK LABS

Round Test Tube Stand with 12 holes is designed for secure holding and organized arrangement of test tubes during laboratory experiments. It offers stability, easy handling, and efficient workspace management for educational and research laboratories.

PRODUCT SPECIFICATION

Product Type	Round Test Tube Stand
Capacity	12 Holes
Material	High-quality Chemical-Resistant Polylab Plastic
Design	Round, compact, and stable construction
Construction	Lightweight, durable, and easy to clean
Applications	Holding and organizing test tubes during laboratory work
Suitable For	Schools, Colleges, Research, Clinical & Industrial Laboratories

PRODUCT DETAILS

Made from high-quality chemical-resistant Polylab plastic, this 12-hole round test tube stand provides excellent durability and long service life. Its lightweight, stable construction ensures safe handling of test tubes for routine laboratory testing, experiments, and sample preparation.
