

Geometry Box (Plastic)

MODEL - AK GP01

MAKE - AK LABS

The Plastic Geometry Box is a complete mathematical drawing kit designed for students in schools and educational institutions. It includes essential geometry instruments packed in a durable storage case, making it ideal for classroom learning, examinations, drafting, and everyday geometry practice.

PRODUCT SPECIFICATION

Product Name	Plastic Geometry Box
Material	Premium Quality Plastic
Contents	Compass, Divider, Protractor, Ruler, Two Set Squares & Eraser
Graduation	Clear Metric Scale (cm/mm)
Storage Case	Durable Plastic Carry Case with Lock
Application	Geometry, Mathematics, Technical Drawing & Drafting
Suitable For	Schools, Colleges, Coaching Institutes & Educational Laboratories

PRODUCT DETAILS

The Plastic Geometry Box contains all the essential instruments required for accurate geometric constructions, angle measurement, drawing, and mathematical activities. Manufactured from high-quality plastic with clear graduations, it includes rulers, set squares, protractor, compass, divider, and eraser neatly packed in a sturdy carrying case.

Ideal for primary, secondary, and senior school students for daily classroom and examination use.

Key Features

- Complete geometry instrument set
- Durable and lightweight plastic construction
- Accurate and clearly marked graduations
- Smooth-operating compass and divider
- Strong storage case for safe organization
- Easy to carry and classroom-friendly

Applications

- School Mathematics Classes
- Geometry Practical Activities
- Technical Drawing
- Engineering Drawing Basics
- Classroom Demonstrations
- Student Examination Kits
- Educational Institutions
